EXPERIENCE

Computer Courage, Emeryville, CA — *Software Developer (Web)*

January 2019 - PRESENT

✦ Building pixel perfect, custom websites to high specifications for an array of clients and organizations, primarily UC Berkeley.

✦ Ensuring the technical feasibility of UI/UX designs while optimizing applications for maximum speed and scalability.

✦ Assuring that all user input is validated before submitting to back-end.

✦ Handling asynchronous requests, partial page updates, AJAX calls, and the Fetch API.

University of California, Berkeley, Berkeley, CA — *Software Developer (Web)*

June 2018 - December 2018

✦ Contract position from June 2018 to December 2018.

✦ Developed and modified WordPress plugins/themes for University websites (berkeley.edu, news.berkeley.edu, calparents.berkeley.edu, blogs.berkeley.edu) in accordance with branding guidelines.

✦ Worked with campus leadership, journalists, and staff to design and implement needed technical features and functionalities.

✦ Customized 3rd party analytics software (Chartbeat) with JavaScript and PHP.

✦ Converted comprehensive layouts and wireframes into working, responsive features.

✦ Prioritized user experience and web accessibility.

Independent Contractor, San Francisco, CA / New York, NY — *Front End Developer*

January 2016 - PRESENT

✦ Provided Front End development services for companies in San Francisco, CA and New York, NY.

✦ Analyzed detailed business requirements and provided recommendations for technical developments and implementations.

PROGRAMMING

JavaScript
PHP
WordPress
